Task #3 (5 points)

CHARITY

According to historical records, on September 2, 1752, during a tournament in London, a knight named Sir Gregor was injured and fell into a coma at 10:35 p.m. that evening. He wakes up a few days later, at 7:03 a.m. on September 16. In honor of her husband's recovery, Sir Gregory's wife, Lady Margaret, decides to donate one pence to the church for every minute her husband is in a coma. Can you help Lady Margaret figure out how many pence to donate?
